WHAT IS A SHADOW ANALYSIS?

A Shadow Analysis is the process to implement Section 295 of the Planning Code, also known as “Proposition K” and “the Sunlight Ordinance.” Planning Code Section 295 mandates that new structures above 40 feet in height that would cast additional shadows on properties under the jurisdiction of, or designated to be acquired by the Recreation and Parks Department can only be approved by the Planning Commission if the shadow is determined to be insignificant or not adverse to the use of the park. Also, a recommendation from the Recreation and Parks Commission is required prior to the Planning Commission hearing.

WHEN IS A SHADOW ANALYSIS NECESSARY?

In general, all applications for new construction or additions to existing buildings with a roof height above 40 feet in height must be reviewed to determine whether such shading might occur.

Fees

Please refer to the [Planning Department Fee Schedule](#) available at www.sfplanning.org or at the Planning Information Center (PIC) located at 1660 Mission Street, First Floor, San Francisco. For questions related to the Fee Schedule, please call the PIC at 415.558.6377.

Fees will be determined based on the estimated construction costs. Should the cost of staff time exceed the initial fee paid, an additional fee for time and materials may be billed upon completion of the hearing process or permit approval. Additional fees may also be collected for preparation and recordation of any documents with the San Francisco Assessor-Recorder’s office and for monitoring compliance with any conditions of approval.
